Product specifications

cDNA Probe for Human Group V Phospholipase A₂

Product # PL 10 Typical Lot

Size of the cDNA:	1.0 Kb
Quantity and Concentration:	1.0 µg in 20 µL of TE buffer.
Applications:	This cDNA can be used for the synthesis, by random priming or nick translation, of radiolabeled probes for investigations of Human Group V Phospholipase A ₂ gene expression.
Storage and Stability:	At least one year if stored at -70°C. Avoid repeated freeze thaw cycles
